

Enrich**Making Sums from Division Equations**

Find the solution of each equation. Then place the solutions in the circles so that the sum of the numbers in any straight line is the same.

1. $\frac{a}{2} = 13$

2. $\frac{t}{2} = 17$

3. $\frac{k}{9} = 3$

4. $\frac{w}{11} = 3$

5. $\frac{c}{1.4} = 20$

6. $0.4 = \frac{y}{80}$

7. $1 = \frac{f}{29}$

8. $310 = \frac{q}{0.1}$

9. $600 = \frac{p}{0.05}$
